

Cultural sheet: Tasty Viola series

Specie	
Brand Name	Tasty Viola F1 Mixture, Orange shds, Violet shds, Blue shds, White shds, Yellow shds, White Blue whiskers shds
Species	Viola wittrockiana hybride
Trade name species	Pansy
Type	Annual
Family	Violaceae
Seed weight	1,1-1,5 gram / 1000 sds depending on seed lot
Article nr	825-100 Mixture, -015 Orange shds, -030 Violet shds, -050 Blue shds, -070 White shds, -075 Yellow shds, -080 White Blue whiskers shds
Young plant	
Germination days	5 days
Germination temp.	18°C – 64°F Covered and high humidity, no light needed
Grow on days	21 (3 weeks, depending on pot7plug size)
Grow on temp.	18°C – 64°F
Min. Grow on temp.	8°C – 46°F (This enlarges the Grow on days period)
Optimal D/N temp.	20°C/68°F -14°C/57°F
Soil for sowing	Sowing soil with good drainage, EC 0,8 PH 5,8-6,5
Soil for sowing covering	Vermiculite / soil with open structure /app. 4-8 mm thick
Fertilisation in the plug	0,8 EC with each watering, low Nitrogen
Ready to transplant	2 large leaf's and central sprout start to stretch Roots cover the whole plug
Attention points during young plant growing	keep the plant sturdy, not weak.
Finish for grower	
Potting soil	Standard soil with good drainage and also good water storage capabilities EC 1,5 PH 5,8-6,5
Pot-size	9-12 cm 3"-4"
Plants per pot	1
Outdoor in open soil	Planting distance 15 cm/6" x 15 cm/6"
Planting soil outdoor	Standard soil with good drainage and also good water storage capabilities EC 1,5 PH 5,8-6,5
Min. Grow on temp.	8°C-42°F (This enlarges the Grow on days period)
Ideal grow on temp.	18°C-24°C– 46°-75°F
Optimal D/N temp.	20°C/68°F -14°C/57°F
Frost	Plants are not resistant against frost. Cover the plants when temperatures are too low
Watering	Regularly, keep the soil moist, never let the plant go limp. Watering with mini. 1,5 EC
Crop time to finish	55-75 days (8-10 weeks) (depends on temperature)
Attention points during plant growing	Increasing the EC during the second half of the crop can stop stretching of the plant. This keeps the culture chemical free and growth under control.
Consumer use	
Use	Decoration in salads and food presentation.
Cooking time	do not cook the flower
Unique specifications	Wide range of colours Good storage due to fringed petals Thick petal structure Peppery-bubble gum bite, hidden in the green (seed) pod. Usable in salads, bakery and warm meals.
